Spin Art Machine

Spin Art is a hit at birthday parties, school carnivals, and many other children's events. Create oodles of fun at your next children's event with a few bottles of paint, cards and the Fun Spinner. Spin Art is not only a fun activity, but the kids have something to take home as well! The paint used is completely safe for youngsters.

It easily washes from skin and most fabrics with mild soap and water. We use the Fun Spinner because of the extra safe design. The Spinner only works when the lid is closed to keep little fingers safe.

1. Place corrugated cardboard strip inside machine against wall.
2. Place a 5x7 card in the machine on the cardholder.
3. Close plexiglass lid. Cardholder will begin to spin when lid is closed.
4. Drop in paint as it spins to create a unique work of art!
5. Machine will stop spinning when the lid is opened.
6. Allow card to dry. Frames are optional.

Size: 14 w x 18d x 12h
